GitHub Portfolio LeetCode

Skills

Programming Languages: Java, Python
Databases: MySQL, SQL
Developer Tools: Git, GitHub, Postman, VS Code, Eclipse IDE
Core Concepts: Django, REST APIs, RESTful Web Services, FastAPI, OOPS, Software Development Lifecycle (SDLC), Data Structures and Algorithms

Internships

NLP Intern — Pantech E Learning Private Limited **2 Months**

- Worked with Natural Language Processing (NLP) using Python, including text preprocessing, tokenization, and data cleaning for textual datasets.
- Applied NLP techniques such as feature extraction, text classification, and sentiment analysis to identify meaningful patterns from text data.
- Used NLTK and Scikit-learn for NLP development, text analysis, and performance evaluation while gaining practical experience in NLP applications.

Cloud Computing Intern — JobPrep **3 Months**

- Worked with cloud computing concepts using cloud services, virtualization, and basic cloud infrastructure.
- Gained practical knowledge of cloud storage, networking, deployment, and resource management in cloud environments.
- Applied cloud computing concepts to understand cloud-based resources, scalable infrastructure, and basic application deployment.

Projects

BuyZo Full-Stack E-Commerce Website — Python, Django, HTML, CSS, JavaScript, Database **Live**

- Developed a full-stack online shopping platform with user registration, login, product listings, categories, cart, wishlist, and responsive product browsing.
- Added Food, Grocery, Electronics, Medicines, and Fashion categories with UPI ID verification as a demo payment feature without real-money transactions.
- **Feature Scope:** User Registration Login, Product Search, Product Details, Shopping Cart, Wishlist, Order Placement, UPI Payment, Payment Status, Order Management, Admin Product Management, Database Integration, and Access Control.

AI-Powered Voice-Assisted Email System — Python, NLP, Speech Recognition, Text-to-Speech (TTS), Gmail API, SQL **Live**

- Developed a Django-based voice-assisted email application that supports email composition, sending, reading, searching, and replying through voice commands.
- Integrated NLP for understanding voice commands and grammar correction, along with English-to-Telugu translation and Telugu text-to-speech.
- **Feature Scope:** Voice Commands, Email Composition, Email Sending, Inbox Management, Email Search, Voice-Based Replies, Grammar Correction, English–Telugu Translation, Text-to-Speech, and Gmail API.

Education

Bachelor of Technology (B.Tech) **Graduated: 2026** *Annamacharya Institute of Technology and Sciences*
CGPA: 7.71 / 10
